North SA Chamber members can edit their company business description that shows as part of their listing in the FIND A MEMBER directory at [www.northsachamber.com](http://www.northsachamber.com). Now members can enhance the listing by adding social media links!

The business description, which is specific information about the products and services you provide, is scanned when users do a keyword search.

At this same location, you may add your company's social media links.

To add/edit your business description, as well as enter your company's social media links, visit the site and follow these steps.

- Under the 'Member Login' area, log in with your Username and Password.
- Click on 'Edit Business Info' in the list of member only items.
- Paste URL links to the various social media pages your company has in the provided fields. Please include the 'http://' at the beginning.
- Type in your business description in the space provided; and
- Click the 'Update' button to save.

*NOTE that ONLY main company representatives may add a business description.*
